## SUMMARY

Experienced Quality Engineer with over 2+ years of experience in the insurance domain, specializing in automation and manual testing. Recognized for consistently delivering high-quality work on time, with a proven ability to adapt quickly to new work environments.

## EXPERIENCE

### LTIMINDTREE | QUALITY ASSURANCE

June 2022 – Current | Airoli, Navi Mumbai

- Responsible for End to End Automation Framework (with over 300+ Test cases).
- Drive Test Automation and helping to drive continuous improvement in automation practices.
- Prepare high-level and detailed test estimates for manual, automation & API testing.
- Perform manual testing for new features, ensuring comprehensive test coverage and quality assurance.
- Regularly incorporate new feature scenarios into automation frameworks to maintain robust test coverage.
- Collaborate closely with cross-functional teams to troubleshoot issues and ensure seamless integration of quality standards across projects.
- Conducted frontend work, successfully fixing defects and bugs to enhance application functionality.

## PROJECTS

### VIDEO STREAMING PLATFORM | REACT, TAILWIND

2018

- Developed a responsive user interface for a video streaming platform using React.js and Tailwind CSS, ensuring seamless playback across various devices and screen sizes.
- Conducted thorough testing using Playwright and other relevant tools to validate functionality, performance, and user interface responsiveness, ensuring a robust and user-friendly video streaming experience.

### MERN-ESTATE | MERN, TAILWIND, REDUX, OAUTH

2023

- Developed a comprehensive real estate platform featuring secure routes, user authentication, profile management, advanced search with sorting options, infinite scroll, and efficient state management with a Persisted Redux store.
- Conducted extensive testing including UI testing with Playwright and API/performance testing with JMeter to ensure application robustness and efficiency
